Recent graduate with a Bachelors of Computer Engineering and a Masters of Software Engineering, excited to put my knowledge and experience to work.

EDUCATION

- **Vermont Technical College - Undergraduate** Williston, VT
Bachelor of Computer Engineering Technology (CPE) Aug. 2015 - Jun. 2019
- **Vermont Technical College - Graduate** Williston, VT
Master of Software Engineering (SE) Aug. 2019 - Apr. 2021

SKILLS

- **Languages:** Java, Python, C, C++, C#, JavaScript, HTML/CSS, SQL, Spark/Ada, Dart.
- **Platforms:** Windows, Linux, Android, IOS.
- **Frameworks:** Google Flutter, Microsoft .NET, React, Django, Qt

EXPERIENCE

- **Masters Capstone Project** Williston, VT
Vermont Technical College Oct. 2020 - Apr. 2021
 - **PhotoScout:** Developed a full stack mobile application designed to help amateur photographers find good spots to take photos by seeing images other photographers have taken in the area. Developed using Google Flutter, GraphQL, and Amazon AWS.
 - **Town Of Bennington Public Works** Bennington, VT
Data Management/I.T. Jul. 2018 - Present
 - **Data Management:** Worked mostly independently to collect and enter data into a cloud-based system as well as transfer and digitize data from old systems.
 - **CubeSat Laboratories** Williston, VT
Software Developer/Team Member Sep. 2018 - Jun. 2019
 - **CubedOS Drone:** Worked with a small team to adapt CubedOS (an operating system designed by staff and students at VTC to run on Cubed Satellites) to run on a physical drone/quadcopter. This was done as a part time job and a senior project.
 - **Mount Anthony Union Middle School** Bennington, VT
IT - Volunteer Work Aug. 2015 - Jan. 2015
 - **Tech Department:** Performed IT work for the middle school tech department. Primarily repaired laptop and desktop computers and troubleshoot the school's network devices.
-
